

Rustins

Liquid Wax

For all fine furniture

A non-flammable and non-toxic wax emulsion containing pure beeswax and, to improve the hardness, carnauba wax.

It can be used with complete safety on any finish on old and new furniture.

For best results the wax should be applied to clean surfaces. Previously applied polishes should be removed with Rustins Surface Cleaner.

Shake the bottle well and apply the wax with a clean soft cloth or duster, rubbing evenly over the surface. Leave for a few minutes, then polish off, with moderate pressure, using a soft clean cloth or duster.

Apply regularly to keep the surface clean and bright. If the finish on the furniture is badly disfigured with scratches or heat and water marks revive the finish before waxing with Rustins Finish Reviver.

N.B. This polish is not suitable for use on bare wood but can be applied to wood that has been sealed with Sanding Sealer, French Polish, Teak Oil or Danish Oil.

HEALTH AND SAFETY

Harmful if swallowed or if inhaled.

Do not breathe fumes.

Keep out of reach of children.

IF SWALLOWED: Immediately call a POISON CENTRE or doctor. Rinse mouth.

Wash hands thoroughly after handling.

IF ON SKIN: Wash with plenty of soap and water.
