COLOURED
Varnish
EXTRA TOUGH POLYURETHANE FOR INTERIOR USE

Stir well before use. Important. This varnish will darken with additional coats. Using a good quality brush, apply evenly. Avoid brushing too vigorously, as this will cause air bubbles to form. The first coat can be thinned with white spirit, typically 10%, to improve penetration. If used over a solvent-based wood dye, apply the first coat with a minimum of brushing.

Re-coating Time
The surface should be dry before applying the next coat. This will be between 4-6 hours depending on the temperature and humidity of the time of application. Bare wood will require 2-3 coats. Sand lightly between coats if necessary.

Disposal (pollution prevention)
Some local authorities have special facilities for disposal of waste paints/varnishes. Do not empty product into drains or watercourses.

Storage
Store in a cool dry place with the lid tightly closed.

Health & Safety
Contains cobalt 6, methyl ethyl ketoxime. May produce an allergic reaction. Flammable liquid and vapour. May cause drowsiness or dizziness. Use only outdoors or in a well-ventilated area. Wear eye protection. If on skin (or hair): Remove immediately all contaminated clothing. Rinse skin with water. If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTRE or doctor if you feel unwell. In case of fire: Use CO2 fire extinguisher.
