

# Rustins

## Light Scratch Cover

**SHAKE WELL BEFORE USE**

**A blend of beeswax, carnauba wax and other waxes and colouring agents, dispersed in solvents.**

For best results clean surface with Rustins Surface Cleaner to remove any wax polish that may have been applied.

Apply the scratch cover to the scratches with a soft cloth and leave for several minutes before rubbing with a clean soft cloth. Several applications may be required if the scratch is deep. When the scratch has been masked apply the scratch cover over all the surface and polish off with a soft cloth or duster.

Regular use of scratch cover will keep all scratches masked and the surface protected with a film of pure wax.

N.B. If the finish is very badly scratched it should be treated with Rustins Finish Reviver.

Danger

### HEALTH & SAFETY

Take precautionary measures against static discharge.

**IF ON SKIN (or hair):** Remove immediately all contaminated clothing. Rinse skin with water. Wear eye protection.

In case of fire: Use carbon dioxide for extinction.
