Soak Up!

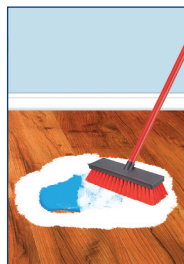

UNIVERSAL SPILL ABSORBER

Absorbs liquid of any viscosity
leaving the area dry and clean

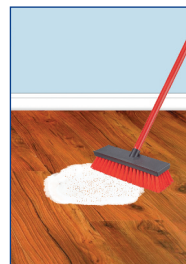

- Non-toxic • Non-flammable •
- Environmentally friendly •

1. Surround the spill to be absorbed with a sufficient amount of Soak Up!.

2. Work the Soak Up! into the spill in circular motions until all of it has been absorbed.

3. Sweep up the product completely.
If the mixture is not saturated, return it to the container for further use.

Soak Up! Universal Spill Absorber improves safety in the environment, by solving the problems caused by accidental spills of hazardous and polluting liquids such as paint, oil, animal accidents, liquid grease and foodstuff.

Soak Up! absorbs any liquid except for hydrofluoric acid and mercury. It is environmentally friendly and safe in all applications. It contains no reactive chemicals and is non flammable.

Proven to have higher absorbing power than clay or hydrate calcium based absorbers, Soak Up! will easily tackle any spills whether it be whilst decorating, working in your garage or your pet having an accident on your floors.

If the mixture is not saturated and causing clumps, it can be used several times.
