PRODUCT DATA SHEET

Product	Surface Cleaner
Type	Blend of powerful solvents formulated to remove grime and wax.
Intended Use	Ideal for use on antique and old furniture where wax and dirt has accumulated.
Special Features	Will not destroy attractive patina that has been acquired due to age.
Preparation	Ensure gloves and eye protection are worn and that there is adequate ventilation.
Application	Apply the cleaner with a soft cloth, or if the wood is very dirty, use 0000 steel wool. If the wood is open grained use a coarser grade of steel wool. Wipe the surface with a clean rag or kitchen towel whilst the surface is still wet otherwise the cleaner will evaporate re-depositing the wax and dirt on the furniture.
Coats	N/A
Drying Time	The surface that has been cleaned should be dry within 90 minutes.
Re-coating Time	Once the surface is dry then it is ready for coating or waxing.
Application Temp.	Ideally 10-25°C.
Coverage	N/A
Maintenance	N/A
Compatibility	If after cleaning, the surface is dull but intact, the gloss may be restored with Rustin's Finish Reviver which will also remove minor defects.
Settlement	Shake before use.
Shelf-life/Storage	A considerable period of time provided the product is stored in an airtight and container. It is preferable to store the product in a cool place and ensure that the cap is replaced.
Hazards	Flammable. Harmful; may cause lung damage if swallowed. Keep out of reach of children. Keep away from sources of ignition- no smoking. Do not breathe vapour. Avoid contact with skin and eyes. In case of fire use foam/dry powder/co2- never use water. A full Safety Data Sheet is available upon request or on www.rustins.co.uk
Clean-Up	N/A
Sizes	125 ml 250 ml
