Contains
base &
hardener

Professional Wood Filler

for use on:
Wood
Metal
Concrete

1000g

Quick-drying, easy to sand
For outdoor and indoor use

Natural

Rustins Professional Wood Filler provides a strong long lasting repair for all interior and exterior wood work. It hardens within 30 minutes at ambient temperature and produces a tack free surface. It is easy to sand and readily accepts Rustins Wood Dyes as well as Rustins Paints and Varnishes. Once fully hardened, it can be sanded, drilled, machined and planed and is particularly useful for carrying out repairs to the edges on joinery where high strength is needed. It is also suitable for marine applications.

DIRECTIONS FOR USE

Preparation: The surface must be clean, dry and free of all traces of oil, grease and dust. Provide a key to smooth surfaces by lightly sanding with a medium grade of sandpaper.

Mixing and Application: After a period of storage, sometimes resin may rise to the surface. If this happens stir well until the filler is reconstituted. Mix the filler with the hardener on a non-porous surface using an amount of filler the size of a golf ball to hardener the size of a pea as the ratio. Mix thoroughly until an even colour is obtained. Do not prepare more than is required as any excess will be unusable after 6-8 minutes. Apply using the applicator provided or use a putty knife. Apply sufficient filler so that it is proud of the surface to allow a continuous smooth surface to be obtained on sanding. For deep filling build the filler up in layers.

Finishing: Once fully cured and after sanding back, most paints, varnishes and woodstains can be applied. The filler may accept a stain differently to the wood so a test area should be checked to assess the suitability prior to final application.

Cleaning: All tools must be cleaned immediately after use with Rustins Cellulose Thinners before the product has set hard.

Shelf Life: The shelf life of the product is approximately 18 months if stored under the recommended conditions.

Storage: Store in a cool dry place with the lid tightly closed below 25 degrees centigrade. Protect from frost.

HEALTH & SAFETY - WOOD FILLER RESIN

Danger

CONTAINS STYRENE. Flammable liquid and vapour. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. Suspected of damaging the unborn child (if inhaled, if swallowed). Causes damage to organs through prolonged or repeated exposure (if swallowed, if inhaled). Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not breathe fume, vapours. Use only outdoors or in a well-ventilated area. Wear eye protection, face protection. IF ON SKIN: Wash with plenty of soap and water. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTRE if you feel unwell. If skin irritation occurs: Get medical advice/attention. Dispose of contents and container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. *Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.*

HEALTH & SAFETY - HARDENER

Warning

CONTAINS: DIBENZOYL PEROXIDE. Heating may cause a fire. May cause an allergic reaction. Causes serious eye irritation. Very toxic to aquatic life. Wash skin thoroughly after handling. Avoid release to the environment. Wear protective gloves / protective clothing / eye protection / face protection. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water or several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. In case of fire: Use suitable media for extinction
