

Rustins

Wax Polish Remover

Removes wax polish and grime from all interior wood furniture

A blend of powerful solvents which will remove accumulated wax polish and dirt from furniture without harming the original finish. If the furniture has only been waxed, the wax will be completely removed, leaving bare wood. It is advisable to test on a small area. It is ideal for cleaning antique and old furniture and will not destroy the patina that has been acquired due to age.

Important: This product may damage items that have been freshly applied with French polish. Always test product on a inconspicuous area first.

Apply the remover with a soft cloth or if the wood is very dirty, with 000 steel wool. If the wood is open grained use a coarser grade of steel wool. Wipe the surface with a clean rag, or paper kitchen towels, whilst it is still damp, otherwise the remover will evaporate, re-depositing the wax and dirt on the furniture.

If after cleaning the surface is dull but intact, the gloss may be restored with Rustins Finish Reviver, which will also remove minor surface defects.

Flammable.

Harmful by inhalation.
Irritating to eyes, respiratory system and skin.

May cause sensitisation by skin contact.

Harmful: may cause lung damage if swallowed.

Keep locked up and out of reach of children.

Keep away from sources of ignition – No smoking.
