

BRIWAX

WAX FILLER STICKS

Furniture Repair Kit

Instructions for use:

Step 1.

Remove any high points or burrs using the edge of the applicator.

Step 2.

Chip a small amount of wax onto the tip of the applicator and press into the area.

Top tip

When filling, it is recommended to start with the lightest colour you see in your piece of furniture. You should then build up the colour using several different shades of the wax.

Step 3.

Remove surplus wax using the front edge of the applicator. Always ensure this is kept level with the substrate to ensure a smooth surface. Make any colour correction by repeating stage 2 but by using a different shade of wax. You may find it useful to chip out a small section of wax by using the tip of the applicator. Then re-apply the preferred colour shade.

Step 4.

The repair is complete.

KEEP OUT OF REACH OF CHILDREN & PETS
