

BRIWAX

This quality steel wool is designed for woodworkers both in the workshop and at home.

GRADE 0000

Very fine graded steel wool particularly recommended for applying wax polish, cleaning delicate woodwork and for cleaning and polishing metalwork.

GRADE 0

Used to remove stubborn dirt on wood or metal or to clean up wooden surfaces after paint or lacquers have been removed by paint strippers.

GRADE 2

Mainly used for stripping paint lacquers and varnish from wood as an aid to paint stripper.

Caution

To avoid cuts or steel splinters, **ALWAYS** use shears or old scissors to cut the required length of steel wool. Keep away from live electric currents.

**Your No1 Choice for
Furniture and Woodcare.**
