

Antiquax Leather Re-Colouring Balm restores the colour to faded and worn leather by simply rubbing in with a soft cloth. It is suitable for use on all leathers except Suede and NuBuck.

Antiquax Leather Re-Colouring Balm renovates the colour and aspect of old and new leather. It works great at re-colouring areas that have been exposed to sunlight or direct heat, and is ideal for colouring cat scratches and re-colouring worn, dry and faded areas.

Instructions: Always test on an unseen area before use. Before using the balm, clean the leather using Antiquax Leather Cleaner. Rub the balm into the leather in a circular motion and then wait for 5 minutes for the balm to properly penetrate the leather. Buff over with a dry, clean cloth. It is advised to protect the leather from fading and future damage by applying Antiquax Leather Protection Cream.

Leather Re-Colouring Balm

A Sense of Tradition

Ideal for use on leather furniture, car leather, jackets, clothing, shoes, and equine leather. Do not use on Suede or NuBuck.

HEALTH & SAFETY:

Keep out of the reach of children

Read label before use

Use personal protective equipment as required

Store in a dry place

IF ON SKIN: Wash with plenty of soap and water

IF IN EYES: Rinse cautiously with water for several minutes
