TECHNICAL DATA SHEET

Antiquax Silver Plating Solution

CODE ANTQSPL100

Type	An aqueous solution containing pure silver.
Intended Use	A product for depositing a fresh layer of silver on plated silver ware and base metals.
Special Features	Easy and quick to use and no electrolysis required. Can be used also to convert brass, copper and bronze into silver plated items. Includes an anti-tarnish agent. Water based and biodegradable
Preparation	Ensure metal surface clean and free from grease. Wear protective gloves.
Application	Shake the container thoroughly and occasionally during use. Apply liberally with a clean cloth or sponge. Rub firmly for 10-15 seconds and then buff lightly with a soft cloth.
Coats	A second application may be required in badly worn areas.
Drying Time	Quick drying
Re-coating Time	Can be re-coated once the first application is dry.
Application Temp.	Ideally 15-20°C.
Coverage	N/A
Maintenance	Reapply when required.
Compatibility	Compatible with all types of silver plated articles and base metals such as brass, copper and bronze.
Settlement	Shake bottle thoroughly and occasionally throughout use.
Shelf-life/Storage	Store in cool, dry area out of direct sunlight.
Hazards	Keep out of reach of children. Wear protective gloves and eye protection. If on skin wash immediately with soap and water. Full Health and Safety Data Sheet can be obtained from www.antiquax.co.uk
Clean-Up	Hands, application cloths and equipment should be cleaned with warm soapy water.
Sizes	100ml
