TECHNICAL DATA SHEET

Antiquax Silver Polish

SP200

Type	A mildly abrasive emulsion polish, designed to remove tarnish, surface discolouration and other surface contamination from sterling and other silverware.
Intended Use	For use on silverware.
Special Features	Easy to use. Based on natural derivatives. Cleans by abrasive and chemical action. Contains anti-oxidants to inhibit further discolouration and tarnish formation.
Preparation	N/A
Application	Shake container well. Apply to a soft clean cloth and lightly polish the surface. Allow to dry to a light haze and buff to a bright finish using a clean dry cloth.
Coats	One treatment is normally sufficient.
Drying Time	Quick Drying.
Re-coating Time	Re-apply after a few minutes if needed.
Application Temp.	Ideally 15-25°C.
Coverage	N/A
Maintenance	Re-apply when necessary.
Compatibility	Suitable for use on all silverware.
Settlement	Shake well before use.
Shelf-life/Storage	A very long time if stored in original sealed container in a cool dry place.
Hazards	Non-flammable. Keep away from children. Keep container tightly closed. Full Health & Safety Data Sheets are available on request or from www.antiquax.co.uk
Clean-Up	Hands and application cloth may be cleaned in warm soapy water.
Sizes	200 ml bottle
