## WOODWORKING ADHESIVE

**D3 TESTED WATERPROOF**

**5 minute initial bond  
10 minute strong bond**

***Ideal for: Laminating & Veneering***

***BS4071 Creep failure tested***

***Interior & Exterior Use***

A general purpose, water resistant adhesive that is easily applied. Meets water resistance requirements of BS EN 204 to durability category D3. High tensile strength. Conforms to BS 4071 creep test in respect of bond strength resistance to sustained loads. Suitable for use with hot or cold presses and radio frequency presses.

Suitable for use with virtually all woods, wood veneers, mouldings and high pressure decorative laminates, i.e. Formica. Moisture content of wood should be uniform and not exceed 12%.

#### **INSTRUCTIONS**

Ensure surfaces are clean, dry and free of loose material. Apply adhesive by brush, roller or serrated glue spreader to one surface only. Clamp or press surfaces together within 15 minutes. Test piece is always advisable before use.

#### **ALWAYS RE-SEAL THE BOTTLE AFTER USE.**

Store the adhesive in a dry area away from heat or cold.

**P102: Keep out of reach of children.**

**P262: Do not get in eyes, on skin, or on clothing.**

**P280: Wear protective gloves and eye protection.**

**P301+312: IF SWALLOWED: Call a POISON CENTER/doctor/ if you feel unwell.**

**P302+350: IF ON SKIN: Gently wash with plenty of soap and water.**

**P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.**
