STONES OF EXETER

This very old
established product is made
similar to the original 1760 recipe,
the finest BEESWAX, blend of
spirits (9.75%), pure soap and essential oils.
This combination ensures that STONE'S
has both cleaning and polishing properties.

There are NO SILICONES or
STABILISERS in this polish.

DIRECTIONS

Dust the furniture, shake the jar apply thinly and
buff immediately with soft clean cloth.

STONE'S Beeswax polish will not smear and
is effective with repeated applications.

STONE'S is made with natural products with
NO stabilisers, therefore consistency
and smell may vary.
