PRODUCT DATA SHEET

Product	Oven Mate Teflon Oven Liner (Product Code OM10108-R)
Type	Teflon coated easy clean covering for oven trays and shelves
Intended Use	Covering for oven shelves and trays. May be used as a roll out sheet for pastry, sugarpaste and marzipan. Excellent surface for sugarcraft and chocolate work. Also may be used a workmat for users of all ages.
Special Features	Reusable, easy to clean, Teflon-coated, non-stick oven liner. Burnt-on spills wash off quickly and easily. Heavy grade liner gives long life and will not crinkle or crease. Suitable for use in microwave, fan and convection ovens. Heat resistant up to 260C/500F.
Preparation	Clean base of oven or tray ensuring all grease and spills are removed before putting the oven liner in place.
Application	Trim liner with scissors. Take care that the oven liner does not come into direct contact with elements or flames and that nothing is placed directly on top of it. Do not use anything sharp or abrasive on oven liner. When heating elements are below the oven floor the liner should be placed on the bottom shelf. Remove liner from oven during the self-cleaning programme.
Coats	N/A
Drying Time	N/A
Re-coating Time	N/A
Application Temp.	N/A
Coverage	N/A
Maintenance	Clean after use and store as below.
Compatibility	N/A
Settlement	N/A
Shelf-life/Storage	Indefinite. Keep dry and flat or rolled up when not in use – do not crease.
Hazards	Ensure liner does not come into direct contact with elements or flames. DO NOT HEAT ABOVE 300 DEGREES CENTIGRADE AS THIS WILL RELEASE IRRITANT FUMES. DO NOT USE DURING OVEN SELF-CLEANING CYCLE.
Clean-Up	Wash in warm soapy water and dry.
Sizes	One 500 x 400 mm sheet per pack
