## PRODUCT DATA SHEET

<b>Product</b>	<b>H2OK Potable Water Pipe Jointing Compound</b>
<b>Type</b>	Semi-permanent pipe and thread sealant.
<b>Intended Use</b>	Designed to seal bolted, flanged or screwed pipe joints to prevent leakage in most engineering situations and plumbing systems delivering hot and cold potable water and low pressure steam..
<b>Special Features</b>	Silicone-based, does not support microbiological growth. Non-toxic, environmentally friendly. A WRAS approved material - meets the requirements of the Water Regulations Advisory Scheme (WRAS) Tests of effect on Water Quality, BS 6920:2014: Parts 1 – 3/ Hot (up to 85 Centigrade) and Cold Water Use.
<b>Preparation</b>	All joints must be completely clean, dry and free from any cleansing agents or loose material prior to application.
<b>Application</b>	Apply with a putty knife.
<b>Coats</b>	For screwed joints apply one coat around cleaned mating thread, remove excess material and screw up immediately.
<b>Drying Time</b>	Not applicable.
<b>Re-coating Time</b>	As required immediately.
<b>Application Temp.</b>	Ideally 15 – 25°C
<b>Coverage</b>	Approximately 16 squares metres per litre.
<b>Maintenance</b>	Not applicable.
<b>Compatibility</b>	Compatible with most metals, plastics and rubber.
<b>Settlement</b>	Stir well before use.
<b>Shelf-life/Storage</b>	Many years if stored in a cool, dry area in original sealed container.
<b>Hazards</b>	Do not eat or drink while using product. Keep container tightly closed. Keep away from children and pets. For full product safety data sheet visit <a href="http://www.rustins.ltd/Heldite">www.rustins.ltd/Heldite</a>
<b>Clean-Up</b>	Clean equipment and brushes with white spirit.
<b>Sizes</b>	250ml
