

Stone's Furniture Spray is a 'surface shine and spray polish' for all wooden furniture that works extremely well on hardwoods such as Teak, Oak, Mahogany and Walnut giving added depth to tired or jaded surfaces. Stone's Furniture Spray is also an 'all in one' top coat finish for new wood, whether hard or soft.

A genuine wax spray that does not contain surfactants, soaps, or silicones, it relies on the cleaning properties of the high quality selected waxes contained in the spray.

Using Stone's Furniture Spray

Shake well before use. Do not use where the temperature is less than 15°C.

Finished surfaces

- Apply Furniture Spray at a distance of 40-50cm from surface.
- Wait 2-3 minutes (depending on conditions).
- Buff with a lint free cloth to produce a waxy shine.

Unfinished surfaces

- Apply Furniture Spray at a distance of 40-50cm from surface.
- Allow to dry for 4-5 minutes (depending on conditions).
- Buff with a lint free cloth to produce a waxy shine.
- Repeat if necessary to produce a higher shine.

DANGER HEALTH & SAFETY

Contains
HYDROCARBON
PROPELLANT

H222 Extremely flammable
aerosol.

H229 Pressurised container: may
burst if heated.

P102 Keep out of reach of children.
