

Our Sink & Drain Unblocker Kit contains a pair of disposable gloves and 500ml of concentrated thick gel formula that reacts with the water to easily cut through hair, soap scum, grease, fat and food build-ups easily. Perfect for sinks, drains and safe to use on plastic pipes.

DIRECTIONS:

1. Before you start to unblock your sink or drain, put on the disposable impermeable gloves supplied with this kit.
2. If area to be cleaned is full of water, remove as much as possible before using Our Sink & Drain Unblocker gel.
3. Pour approximately half the bottle directly into the sink hole or drain then rinse any excess gel that has spilt around the area if possible.
4. Leave for at least two hours (ideally overnight) to break down the blocked sink or drain.
5. Pour hot water down the sink hole or drain to flush any remaining residue that may be there.
If the drain has been severely blocked you may have to repeat the process again.

IMPORTANT: Do not mix the gel with other chemicals and acid based cleaners.

DANGER

Contact with acids liberates toxic gas. Causes severe skin burns and eye damage. Harmful to aquatic life with long lasting effects.

KEEP OUT OF REACH OF CHILDREN.

Do not breathe fumes.

Wear protective gloves, eye protection and face protection.

IF SWALLOWED: Rinse mouth. DO NOT induce vomiting

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water .

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
