

Bonda

BILGE CLEANER

HEAVY DUTY

BIODEGRADABLE

**Breaks down and disperses grease,
grime and sludge leaving the bilge
clean and odour free**

SHAKE WELL BEFORE USE.

Bonda Bilge Cleaner is a water-based cleaning agent when added to bilge water removes grease, scum and floating oil with normal boat movement. It is biodegradable, highly concentrated and will get rid of sickening smells.

When diluted it may also be used to remove oil and grease from paintwork, fittings and traffic film from cars.

APPLICATION

Pour Bonda Bilge Cleaner into any shallow accumulation of water between floorboards. Add most in the area around the pump well. Clear all limber holes. Leave Bonda Bilge Cleaner in the water whilst underway, then pump out in the usual manner. If the boat is motionless, add Bonda Bilge Cleaner and stir bilge water. Rub down bilges with a brush if bilge particularly dirty. For surfaces not touched by bilge water, add a little Bonda Bilge Cleaner to a bucket of water and apply by sponge, rag or cloth. For cleaning oil stains and grease from paintwork or traffic film from cars, add a little Bonda Bilge Cleaner to the cleaning water. Optimum temperature for application is 15-25°C.

USAGE

100 ml of product to 25 litres of sea or inland water is enough to treat a 30 ft. yacht. In its highly water-diluted form, (i.e., 1 part Bonda Bilge Cleaner: 250 parts water), may be used on car paintwork to remove oil, grease and traffic film.

STORAGE

Many years if stored unopened in a cool, dry place

HEALTH & SAFETY

Danger.

Contains (C9-11) alkyl alcohol ethoxylate. Harmful if swallowed. Causes skin irritation. Causes serious eye damage.

Keep out of reach of children. Wear protective gloves/protective clothing/eye protection/face protection.

Call a POISON CENTRE or doctor if you feel unwell.

IF ON SKIN: Wash with plenty of water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTRE or doctor.

Take off contaminated clothing and wash it before reuse.
