**WOODFILLER
FOR INTERIOR & EXTERIOR**

Made in UK

DIRECTIONS

Preparation: The surface must be clean, dry and free of all traces of oil, grease and dust. Provide a key to smooth surfaces by lightly sanding with a medium grade of sandpaper.

Application: Using a suitable filling knife, work the filler into the wood leaving it slightly proud for sanding. Deeper holes should be built up allowing 2 hours to dry between layers. Once dry, the filler can be painted, stained or varnished.

Note: Try a small inconspicuous area first as the filler may stain / varnish darker on the area filled.

Cleaning: Clean tools in water immediately after use.

Storage: Store in a cool dry place with the lid tightly closed. Protect from frost.

Health and safety:
Contains 5-chloro-2-methyl-2h-isothiazol-3-one.

May produce an allergic reaction. Keep out of reach of children.

IF SWALLOWED: Call a POISON CENTRE/doctor if you feel unwell.

Do not get in eyes, on skin, or on clothing.

IF ON SKIN: Gently wash with plenty of soap and water.

If skin irritation occurs: Get medical attention.

Wear protective gloves and eye protection.

Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.
