PRODUCT DATA SHEET

Product	Quick Dry Floor Paint
Type	A hard wearing acrylic emulsion-based paint for floors.
Intended Use	Long-lasting finish for interior/exterior concrete, brick and stone floors. Available in black, red and grey
Special Features	Non-flammable, low odour, low VOC. Can be applied over new concrete.
Preparation	The floor must be clean and free from wax, grease and dust. Any cracks in the garage floor can be repaired with mortar. If applying to interior or exterior concrete ensure the concrete is dry and that there is no dampness rising through the concrete. Rising damp can cause adhesion failure. Efflorescence and alkaline salts that form under the coating because of damp can cause adhesion failure. If in doubt carry out a test. Always dilute the first coat by 50% with water to act as a sealer. Two further diluted coats will be required. If applying to a wooden floor, remove all traces of wax polish which may have been applied, with wire wool and white spirit, wiping off the solution with a clean rag. Large holes or cracks can be filled with Rustins Wood filler
Application	By short bristle brush or roller.
Coats	Total of 3 coats. Always dilute the first coat by 50% with water to act as a sealer. Two further undiluted coats will be required
Drying Time	Touch dry in 30 minutes depending on ambient conditions.
Re-coating Time	Recoat in 4 hours depending on ambient conditions
Application Temp.	Should not be applied below 5 degrees Centigrade or in high humidity.
Coverage	Approx. 10 sq. metres per litre per coat
Maintenance	Wash the floor with a damp cloth or mop. If after some time, the floor shows signs of wear, re-apply as above.
Compatibility	If applying over a previously painted floor, remove flaking paint with a scraper or completely with Strypit Paint and Varnish Stripper. Oil or grease on a concrete garage floor can be removed with a strong detergent and a stiff brush. If in doubt carry out a test.
Settlement	STIR WELL BEFORE USE.
Shelf-life/Storage	Several years if stored unopened under cool, dry conditions. Protect from frost.
Hazards	Warning. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. Keep out of reach of children. Do not get in eyes, on skin or on clothing. Wear protective gloves and eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a POISON CENTRE or doctor if you feel unwell. IF ON SKIN: Wash with plenty of water.
Clean-Up	Remove as much paint as possible and return to the supply container. Brushes should then be cleaned immediately with water. If the brushes become hard, they may be cleaned with Rustins Brush Restorer or Rustins Cellulose Thinners.
Sizes	Various
