

BRUMMER

Brummer – the leading range of wood fillers available today – is a name synonymous with craftsmanship and quality. Manufactured using the best quality raw materials, our products have been tried and tested for over 80 years by wood craftsmen and leading furniture and joinery manufacturers.

Brummer has the most comprehensive range of fillers available, including interior and exterior grades, a wide range of natural wood colours and sizes to suit every application.

Brummer Wood Filler is available in a range of popular wood shades to complement the finishes used to enhance the beauty of natural wood.

Interior Wood Filler

Ideal for repairing furniture, doors, skirting boards and wooden floors, picture frames and mouldings, Brummer Interior Wood Filler is heat proof (up to 90°C), works equally well on most metals and can be used under nearly all types of decorative finish including polish, lacquer, varnish and paint.

Highly versatile, it can be used outside if varnished or painted over and mixed with other Brummer wood filler colours of the same type. It can be drilled and sanded just like wood itself, or stained with a proprietary stain to achieve any desired shade.

Available in 16 colours - more than any other brand.

Sizes: 250g, 700g, 2.5kg

700g & 2.5kg in limited colours

Exterior Wood Filler

Ready mixed, waterproof and can be used under most types of decorative finish including polish, lacquer, varnish and paint.

It is also impervious to sea-water and can be used for most marine applications as it will not shrink or crack and, just like wood itself, Brummer Exterior Wood Filler can be drilled and sanded. It can also be used on concrete, plaster, fibreglass and stonework.

Ideal for window frames, garden furniture, caravans and many marine applications.

Available in 15 colours - more than any other brand.

Sizes: 225g, 625g

625g in limited colours

The leading range of wood fillers available

Wood Filler Counter Display Unit

Wood Filler Counter Display Unit that includes:
12x Interior Wood Fillers and 12x Exterior Wood Fillers

White
Pine
Light Oak
Medium Oak
Dark Oak
Natural Oak

Charter Aluminium Wood Primer

A specially formulated paint primer which seals knots in resinous timber, particularly pine, and minimises 'bleeding'. May also be used over creosote when a new finish is required and acts as a barrier to sap and moisture, reducing the risk of blistering.

Sizes: 500ml, 1L, 2.5L

Peel Coat

A revolutionary product which allows wall coverings to be removed from a wall or surface without soaking or scraping. Simply coat the walls with Peel before you hang your paper and when you redecorate, the old paper pulls off in complete lengths. Ideal for TV, theatre, exhibitions or displays, the paper can be re-used and the panels and displays may also be re-used and the application of Peel avoids all the soaking and scraping normally associated with paper and fabric.

Size: 5L
