

STONE'S

Furniture care since 1760

Dr Stone, an Exeter pharmacist, developed Stone's in Devon in 1760 as a pure polish for furniture. At that time it was probably the only manufactured polish on the market.

It is still made today using the same traditional formula from the finest Beeswax, with no artificial ingredients or silicone, and is trusted by collectors and restorers around the world.

BEESWAX FURNITURE CREAM

Based on a traditional recipe using the finest quality refined Beeswax and essential oils blended with spirits. Containing no silicone, it gives wood a deep, natural glow with minimum effort to buff up.

Available in dark and light.

Size: 227ml

BEESWAX LEATHER CREAM

This high quality leather cream and polish has a very fine consistency.

Beeswax based, it also contains cedar oil and is ideal for book bindings, saddlery, boots, shoes, luggage and upholstery. Suitable for all leathers except Suede and NuBuck.

Size: 125ml

FURNITURE SPRAY

The perfect wax finish in an easy to use, convenient aerosol can. Stone's Furniture Spray cleans and polishes all finished and unfinished interior wooden furniture leaving it with a high wax shine. Contains no silicones.

Size: 400ml

LINT FREE CLOTHS

Stone's Lint Free Cloths are ideal to use for applying Stone's Furniture Cream and Leather Cream. Also suitable for oils, wax, dyes & polishes.

Size: 3 in a pack - 300mm x 300mm.
